

**Your constituents want to stay
in their own homes,
not go to the home...**

We know you want that for them, too!

The number of enrollments for homecare continues to increase. It's clear more and more seniors and people with disabilities want to stay independent and in their communities. To ensure they have access to these services, we need an increase in the Medicaid personal assistance services rate. This will allow providers to offer a living wage and recruit and retain caregivers.

And on top of this, homecare saves taxpayer dollars. **For someone who is able to choose home, here is a look at the numbers:**

HEMOCARE

Cost comparison
per month¹:

\$4,195

2018 Enrollment²:

69,965

Number of direct care
hours per day:
